

Table of Contents

1.0	Project Background and Summary	1-1
2.0	Phase II Evaluation Objectives	2-1
3.0	Phase II Evaluation Performance Measures and Overview	3-1
3.1	Evaluation Measures	3-1
3.2	Overview of Evaluation Methodologies	3-3
4.0	Field Data Collection Plan	4-1
4.1	Study Areas	4-1
4.2	Field Data Collection Plan	4-2
4.2.1	Field Data Sources	4-2
4.2.2	Data Collection	4-2
4.3	Evaluation Methodology	4-5
4.3.1	Freeway, Ramp, and Arterial Data Evaluation Methodology	4-5
4.3.2	Crash Data Evaluation Methodology	4-6
5.0	Results of the Phase II Field Evaluation	5-1
5.1	Freeway Travel Time and Travel Speed	5-1
5.2	Freeway Traffic Volume and Throughput	5-6
5.3	Arterial Speed, Travel Time, and Volume	5-11
5.4	Ramp Travel Time and Delay	5-11
5.5	Safety Impacts	5-13
6.0	Phase II Traveler Surveys	6-1
6.1	Fall 2001 Traveler Survey Methodology	6-1
6.2	Fall 2001 Market Research Results	6-2
6.2.1	Socioeconomic Profile	6-3
6.2.2	Geographic Representativeness	6-5
6.2.3	Travel Patterns	6-6
6.2.4	Attitudes Toward Aspects of Travel	6-9
6.2.5	Traveler Opinions About the Future of Ramp Metering	6-11
6.2.6	Summary and Conclusions	6-14
7.0	Benefit/Cost Analysis	7-1
7.1	Extrapolating Field Data	7-1
7.1.1	Segment Categorization	7-1
7.1.2	Extrapolation Factors	7-3
7.1.3	Extrapolation Worksheets	7-4
7.1.4	Extrapolation Summary Worksheet	7-7

Table of Contents

(continued)

7.2	Environmental Impacts	7-7
7.3	Estimation of Benefits and Costs.....	7-9
7.3.1	Estimation of Benefits.....	7-9
7.3.2	Estimation of Costs	7-10
8.0	Planning for Future Ramp Meter Deployments	8-1
8.1	ITS Deployment Analysis Software (IDAS)	8-1
8.2	Traffic Simulation Tools	8-3
8.2.1	Paramics	8-3
8.2.2	VISSIM.....	8-5
8.2.3	CORSIM.....	8-6

List of Tables

2.1	Phase II Evaluation Goals and Objectives.....	2-1
3.1	Phase II Evaluation Measures.....	3-2
4.1	Phase II Study Area Extents.....	4-1
4.2	Summary of Performance Measures and Data Sources.....	4-2
5.1	Summary of Freeway and Ramp Evaluation Results – Fall 2000.....	5-1
5.2	Summary of University Avenue Evaluation Results – Fall 2001.....	5-11
5.3	Ramp Travel Time and Delay – Fall 2001.....	5-12
6.1	Gender Distribution for Random Samples.....	6-3
6.2	Age Distribution for Random Samples.....	6-3
6.3	Car Ownership for Random Samples.....	6-4
6.4	Income Distribution for Random Samples.....	6-4
6.5	Education Levels for Random Samples.....	6-4
6.6	Household Size for Random Samples.....	6-5
6.7	Total Travel Time for Random Samples.....	6-6
6.8	Freeway Travel Time for Random Samples.....	6-7
6.9	Comparison in Respondents’ Ratings Across Waves of Random Samples.....	6-9
6.10	Grouping of Responses for Metering Policy Options.....	6-13
7.1	Twin Cities Corridor Categorization.....	7-2
8.1	ITS Components in IDAS.....	8-2
8.2	Simulation Tool Comparison.....	8-4

List of Figures

4.1	Sample View of the Field Data Summary Worksheet	4-6
4.2	Sample View of the Crash Data Summary Worksheet.....	4-7
5.1	I-494 NB P.M. Peak Period Speed and Speed Variability	5-2
5.2	I-494 SB A.M. Peak Period Speed and Speed Variability	5-3
5.3	I-35W NB A.M. Peak Period Speed and Speed Variability.....	5-3
5.4	I-94 EB P.M. Peak Period Speed and Speed Variability	5-4
5.5	I-94 WB A.M. Peak Period Speed and Speed Variability	5-4
5.6	I-94 WB P.M. Peak Period Speed and Speed Variability.....	5-5
5.7	I-35E SB A.M. Peak Period Speed and Speed Variability	5-5
5.8	TH-10 EB A.M. Peak Period Speed and Speed Variability	5-6
5.9	I-494 NB P.M. Traffic Volume	5-7
5.10	I-494 SB A.M. Traffic Volume	5-7
5.11	I-35W NB A.M. Traffic Volume	5-8
5.12	I-94 EB P.M. Traffic Volume.....	5-8
5.13	I-94 WB A.M. Traffic Volume.....	5-9
5.14	I-94 WB P.M. Traffic Volume	5-9
5.15	I-35E SB A.M. Traffic Volume	5-10
5.16	TH-10 EB A.M. Traffic Volume.....	5-10
5.17	Comparison of Crash Occurrence by Crash Type (for Peak Period Metered Freeways).....	5-13
5.18	Comparison of Crash Occurrence by Crash Type (for Peak Period Metered Freeways).....	5-13

List of Figures (continued)

6.1	Fall 2001 Survey Geocoding Results	6-6
6.2	Average Travel Times	6-7
6.3	Diversion Pattern Under Current Conditions	6-8
6.4	Ramp Metering Attributes	6-10
6.5	Results of the Polling Questions	6-11
6.6	Policy Options for Metering Modification	6-12
7.1	Sample View of the Corridor Categorization Worksheet	7-4
7.2	Sample View of the Extrapolation Factor Worksheet.....	7-5
7.3	Sample View of the Extrapolation Worksheet.....	7-6
7.4	Sample View of the Extrapolation Summary Worksheet	7-8
7.5	Sample View of the Environmental Impacts Worksheet	7-9
7.6	Sample View of the Benefit Estimation Worksheet	7-10
8.1	Simulation Tool Evaluation Criteria	8-3
8.2	Sample View of Paramics	8-5
8.3	Sample View of VISSIM.....	8-6
